## **DORSET COFFEE**

Created by Nigel Green, Dorset Coffees are inspired from and reflect all areas of the beautiful county of Dorset, roasted and blended in the Frome Valley and only using the world's finest beans, all coffees are roasted using traditional techniques.

We use their Dorset No.1 blend, which is slow roasted to produce full, intense liquor, roasted and then blended to enhance the flavour of the five Arabicas that combine to make up this exclusive roast. The beans are roasted to order to guarantee the freshness of the coffee.

"Coffee beans are rather like grapes. You have the intrinsic nature of the strain, but a lot of the character is from the terroir - the geography, the soil itself, and the weather." Nigel explains: "Different areas have differing acidities, so I have to vary supply and blends to get it right."
